Facsimile: (801) 799-5700

On 21 September 2006, Examiner James Allen Shriver and L. Grant Foster engaged in a brief telephonic interview regarding the application. The Examiner indicated that the application was in Publications, but that Table 1 may be objectionable because of its location in the detailed description portion of the specification. The Examiner indicated he would check with Publications and let me know what needed to be done.

One of the suggestions discussed during the telephonic interview was to take Table 1 out of the detailed description portion of the specification, re-label it as a figure, and put it with the drawings. The Examiner indicated that no new matter would result from such an amendment to the application.

Respectfully submitted,

Date: 29 JANUARY 2007
